

Production Order 850 / PO Change 860 Notes

Purpose:

The Production Order is sent out from General Mills. It contains info for the trading partner on what they should produce. Partner must accept both 850 and 860 even if the number of transactions involving the 860 are minimal.

Potential Testing Scenarios:

Production Order	Production Order - New (Direct Consumption) - Receive Finished Pallets
Production Order	Production Order - Change - Receive
Production Order	Production Order - Change - Consumption Tests

Are there design features within their application or EDI systems that need testing?
